

# 38. Lane Burroughs: The Boys Are Back In Town

## **Gavin Kelly**

You're listening to beyond 1894, a podcast dedicated to updating you on research, innovation and campus life happening at Louisiana Tech University.

## **Teddy**

Hello, everybody. Thanks for joining us today. This is Teddy Allen with the University of communications Carter Carroll on the board. And a special guest Dateline burrows lane, who's the head of the engineering department here. Wait a minute. That's not right.

## **Lane Burroughs**

Let's go with it. Keep going with it. That sounds a lot better lines. Our

## **Teddy**

head baseball coach line. Thanks for making time for us today. Man.

## **Lane Burroughs**

Are you kidding me? Thank y'all for having me. This is awesome. Get me out of the office and over here to wildly tower and can't beat it. I just walk in this building and feel smarter. richer and better. Yeah. This is

## **Teddy**

the beyond 1894 podcast. And of course, it's the academic side of the school. Lane is the head baseball coach and he doesn't care about academics he does deeply and your team is really shelling out who's our introduce our academic advisor to everyone

## **Lane Burroughs**

Ryan Amodei does a tremendous job over there in the academic center this year. I mean, we had well we'll get into this I'm sure but we had our banquet Friday nights a lot of this fresh in my mind. We had three academic all Americans last year in the history of our program. We had had one. Thank you. So three in one year, we had Stanford for the most I am Yes. So I'll know who that is. But I got a pretty good academic institution as well. But still Nashville 100 wells and Jonathan Fincher. All Academic All American. So to me, that's the that's the toughest and best one, you got to be really good at both discipline. You have to be a really good student and a really good ballplayer. You can't just be good at one always, like I said the other night, you can't hit 250 and have a four Oh, and vice versa. You can't hit 500 and have a two one. So you have to be really good. It's very, very proud of those young man.

## **Teddy**

Yeah, they helped tech to a 42 win season last year, and we'll get to that and talk about the upcoming season but didn't want to mention they're getting it done academically over on the diamond. And also getting it done athletically. Jonathan and Steele plan to be medical doctors I believe

### **Lane Burroughs**

that's that's their plan. And you know, what the, my doctor that I use where I grew up, I'll have the same doctor, he's ready to retire. So I need those guys to get through medical school so I can have a new doctor. You know, I was the guy when I was 19. The pediatrician told me it's time to find a new doctor to me. I just kept going back to my child doctor there. So yes, they're both they're both gone to medical school. Yes, I'm once you get taller than me. It's time to find a new doctor. So excited about those guys in the future ahead of

### **Teddy**

them. Well, we were having a University Communications meeting in this very conference room where we're at now on the 12th for a while the tower and deciding what you know, some upcoming podcasts and everybody said let's get lane. I said lane. Baseball Coach. Yeah, let's get over here. And we can talk about baseball plus some academic stuff and just tech in general and talk about Lane and I think from last spring, just the magic that happened in a couple of weekends. The whole town got caught up in Bulldog baseball It was a wonderful time something that we could never duplicate. Tell us about the you know your your feelings with the fellas over there. And with the city Ruston in the new JC love ballpark, the Congress tournament and in the regional.

### **Lane Burroughs**

It was unbelievable. You know, obviously we knew going in, you're going to host the Conference USA tournament. And from a coaching perspective, when you get that news, you kind of get a little anxiety because now we need to make the conference tournament. We got to make sure we're in it. There's that added pressure and fortunately, we played well enough and it couldn't have worked out any better for us and our fans in Ruston is we hate to say it but we got in the loser's bracket on day two. So therefore we played every day, including two games in one day, and we made it to the championship. So as far as people coming in and being able to see baseball, it couldn't have worked out any better. And you know that Saturday, May 29 is the date. You know when Dr guys told me after the game, this is a Greatest Day in Louisiana Tech baseball history. That's all I needed to hear. And you know when all of it's going on, you don't really know me you don't really we're just trying to win we're trying to score we're trying to keep them from score and I don't think you understand what's really happening in the to walk offs. And you know, you look at a guy like Cade Hodges I brought him up at the banquet the other night that this is a young man let's just call it what it is. He had a yips. He started out as a midweek starter. And we could talk about Nashville and Metolius walk off set day but Cade, he essentially he didn't travel with us for a month or two and just went away and tried to figure out his issue and he comes in we're down eight to nothing against other myths. And he comes in and makes him like it. If you got to do that. There ain't no pump it up. We never hear that song there ain't no Saturday doubleheader sweep against Southern Miss both walk off and there's no regional hosts we don't host they do we don't and you know young man like that it kind of gets lost what he did were two runs from being run rolling out of the tournament he comes in and shuts them down gives us a chance he pitched for five oh, it was incredible and he had you know, just the the way he was able to go out and do that

and that's what our program is all about. So we talked about we we have a slogan called we don't move and I brought that up you know, it's a young man he didn't move he kept he kept showing up kept coming and kept working and you know, just very proud of a young man like that. But those two weeks were unbelievable. Obviously when you when you get into the summer and you have time to decompress and really think about it you start now you start getting the text from people all over town former from former lady Techsters. You know, they know what it's about to win and just bragging on our program and be in there. That's when it really hits you that wow, man, this was this was pretty cool. What we were able to do.

### **Teddy**

Yeah, the baseball Gods really lined things up for the Bulldogs again and got a new ballpark. The city of Ruston got to be a part of it. You just happen to play your art travel Southern Miss, you're down by 100 runs, come back and win it. It's a magical Saturday. And nobody ever forget of course that happened then this is fixed to be a new year, but nobody can ever take that away. And then the next weekend hosting the regional I remember y'all had beat Alabama, which was a game you probably should win but God What if you don't, but you did. And I was told to take a box screw up to you in your office and you're sitting behind your desk and you're you know what, what is what is happening to fix it play another game. So a bunch of fun and again, the first time the Bulldogs had got to host regional. Okay. Let's talk about how you got to be a baseball coach. You grew up in Meridian, Mississippi.

### **Lane Burroughs**

I did. Yes, sir. And do you remember the first time you played far? Yeah, I was played with the Astros T ball. We were the Astros Sertoma club sponsored and as far as I lived in a little community called Sick Aleena right outside meridian. So I played you know peewee ball was sick and Lena and my dad actually lived in Meridian. He was a city slicker, I guess a meridian. So we moved out to country and so I want to move to I want to play in town. So we used his address, you know, sometimes you got to do those things. It's like, yeah, and I ended up getting drafted by point rexhall. That was a here's a story. I'll be quick and brief. But I guess I can tell this years later, he worked on the railroad with a young with a man who coached the team. And this was all a setup. I went to the draft. I didn't know any of these kids. And I was to Teddy, you coach, little league ball. And all you know, at the draft, I was told not to do good. So they told me a pop up and I missed it on purpose. And all the kids are laughing. I'm starting to get heated. They roll me a ground ball and I let it go between my legs and all these kids are happy. Oh my gosh, there's this guy and I'm not happy about it. But I did what I was told I was a good soldier. And I went the number two pick. So I'm sure when they get in that meeting. They pick the kid that was missing balls. They're like, Okay, we just got hustled. So yeah, that that was a vivid memory. I can take you to that park where that happened to data for all the young kids in Meridian

### **Teddy**

was the kid who got picked ahead he

### **Lane Burroughs**

was he better than you? Probably so I don't remember who that was. But I would think probably if he was the number one pick. Yeah, that's a good question. Who that

**Teddy**

would have been? Yeah, I wonder who that was. Okay, point Mississippi. So it's point one wrecks all drugs. Yep. And I've got a picture that team I think, yeah, we're orange and white,

**Lane Burroughs**

orange, blue and white. Yeah. Yeah, that will get you and you were fast. That was my one SKU what was the best part of your game besides spade and you bet it laid off. I think my whole life I was a leadoff hitter. You know, just I can defend in the outfield. I was a catcher my whole life coming up a call from the time I was eight years old till I got to high school made the high school team in eighth grade. Our coach basically told us or told me, he said, If you want to play as a ninth grader, there had only been 3/9 graders ever start he said you can play but you're gonna have to move outfield because we had a catcher. That was one year ahead of me. And I was like, I want on the field. Let's go. So I moved to centerfield nets and never came back out of the outfield.

**Teddy**

And you've had to tell players that before right? Oh, absolutely. On the spot right beside the guy's gonna defensively we got him there. No doubt. So you went through text to your college the last time you played on a college team?

**Lane Burroughs**

Yeah, I went to junior college Meridian Community College and we had a tremendous tremendous team. We played Junior College World Series first first team at that institution to do it in Grand Junction, Colorado. So that was a fun. Oh, it was fun. It was fun. We had a blast and we played three games. Last the first one big leaguer future big Leaguer betas and then ended up winning the game and last and then went to miss it because after that, played there two years got my bachelor's degree and my master's that's where I started coaching was actually just you know, I got a criminal justice degree I wanted to be an FBI or Secret Service and arrest the bad guys and

**Teddy**

our coach, are you attacking right now?

**Lane Burroughs**

No, I'm not. But our coach said, hey, I want you to GA for me pay for your master's. Oh, yeah, I'll do that. I'll get my master's degree criminal justice and he's paying for it. Why not? And it kind of got in my blood. I kind of like this coaching thing. So that's how it started honestly,

**Teddy**

and can't get it. Once it's in there. Coach if you can't get it out. We'll talk about that some more in a second. The future big leader who beach also.

**Lane Burroughs**

His name was Jose Rosato, he pitched for Kansas City, Royals. Rosato, he had left he can't believe that happened. He was at Galveston college was where he played I believe his first name was Jose it

was risotto. And yeah, about four years later, he's an all star game so you don't feel quite as bad when he's pitching in the All Star game. Why

**Teddy**

did he have you batted right right about it? Right. Okay, what do you have

**Lane Burroughs**

breaking ball and I mean, obviously had velocity, but really, I can remember really, really good hammer. He had that nose, nose breaking ball that a lot of them tend to have

**Teddy**

cash, it's hard to hit a baseball. I was talking to one of our softball players yesterday, Lindsey Edwards plays third by she's Freshman of the Year. A couple of years ago, she's coming out had a broken arm she she was so it's such a pleasure to talk to her. She had a strawberry on her cam. Sure. I mean, she's ballplayer. I said, I don't know how y'all hit it from 40 Something feet. Do you have an appreciation for softball?

**Lane Burroughs**

Absolutely. No question and just their game when you watch it. It's so exciting to stop action. And it's like they're playing in a living room. You know, it's like it's everything that right on top of each other. Everything's happening so fast. You're like, my goodness, it's just a totally different course. Yeah, just

**Teddy**

to give them some pub 23 games. Home games are scheduled over at Billy bendrick feel so get out there to watch them and we'll talk about lining them starting their schedule. Here in a couple weeks against Wichita State that's on February the 18th. They're going to play three at beautiful JC Love Field. Okay, you said you were GI and coach and gotten your blood. But you tried to be a grown up and you went got an actual physical job. Did you do some research? If so tell us about that.

**Lane Burroughs**

Oh man is where he moved to Memphis I took a job with roadway trucking. bought me a new big green Ford f150 truck and I remember my payment was 399 a month. That's what got me a nice apartment. Southaven Mississippi and on the third day of that job, I walked out the door didn't come back and so was not for me. And I remember getting a job at East Mississippi junior college last chance you I guess it was last chance you for my coaching Korean, lived in the dorm got three meals a day. And I made 400 a month. So after I paid my truck note, I had that \$1 to to spend on myself. Take my girlfriend now wife, or whatever you want. We had a blast. Yeah.

**Teddy**

Thank you. We'll talk about Susan in a second Susan's maiden name. Parker, Luiza Parker burrows. I think you call Susan and your dad to come get you in Memphis or told him

**Lane Burroughs**

you read it. I'm absolutely you know this, as I have told you this story, and I was not in a good place. And that was December. And they come and get my stuff. And Susan was working. She's a nurse. She had a real job. She actually had an apartment, all that she was a grown up. And she was Daisy out more than \$1 Yeah. And I remember going over I told you this store now No. Going over to her apartment. And watching. It's a Wonderful Life. It came all that night because it's two weeks for Christmas. And I was like, I'm gonna watch this movie. I've been hearing about it. And went by the time it was over. I mean, I always say that movie kind of changed my life. It really touched me so it's ever Christmas. It's tradition we watch. It's a Wonderful Life.

### **Teddy**

I'm glad you got out of the trucking business. Yes. It wasn't only Well, I'm glad you went to the baseball bats. Okay, Susan. Y'all met early on in your careers like human being?

### **Lane Burroughs**

Yes. Actually. In the fourth grade. She she she moved from the city for meridian. parents got divorced. So she came out with Lauderdale. And yeah, she claims she tells the story when she asked the girl who I was. Which I'm sure all the girls were asking who I was Teddy at that time in the fourth grade. It's IKEA IKEA kid had long hair. Yeah, rocking it. And she told that girl that's mo marry that guy in the fourth grade. She said that he claims it still to this day. So we started dating in the ninth grade. I thought it was great. I guess I'm sure we were boyfriend girlfriend. couldn't really go on date it was January what? When? Yes. Yep. Have to be my girlfriend 1986

### **Teddy**

Fat wine that you remember that day? Yeah, it says a lot for season Parker. Yep. So you went up decision you said do you want to go with me?

### **Lane Burroughs**

I could tell you. I can tell you what happened. I was watching a NFL playoff game I remember the Broncos play and she knocked on my door. Oh, it has a house I was like you know when you're that age and a girl's your door you kind of want to run in how we're not doing here. She had had her mom drop her off on the way to church and yeah, so she came in and visited with us and I asked her Do you want to go with me? I don't know where we were going she said yes she didn't want to go with me

### **Teddy**

we all have been going together for a good while now. So yes, she's we love we love Oh yeah, she's decision gets hit as far as baseball goes. And she gets it when y'all are somewhere and people have talked she just gets goes Oh

### **Lane Burroughs**

no, she's been she knew what she was getting into trust me so yeah,

### **Teddy**

she is the MVP. Okay, let's talk about some of your pliers you lost I mean you're getting used to pencil ins and stuff at the top of the lineup. So what can fans expect this year?

## **Lane Burroughs**

Well we got five everyday starters back in the lineup so that's a good thing but when you you know you did lose whales and baits and Garcia when you talk about 100 Whales you talk about the all time hits leader in three years he broke the all time hits record and we talk about Parker Bates he's the all time games played leader here at Louisiana Tech so two very very integral parts of our program and what we're able to do and it's those guys were good they were clutch especially whales. I mean you're gonna miss this fun when it hit and we always felt like last year that happened a lot if we could turn our lineup back over and just get Tyler back to the plagues. Here comes whales are coming back. Yeah chance and it happened a lot so but we do get young we'll be back. You got McConnell you got metoda net reveal Corona Brantley who's had showed signs of being a really good player. So darious Meyers is another one that has been in the lineup a lot. So we got some really good hitters, just somebody just going to have to step up and and take the plate on if he can, but kind of where where whales and baits left off in those clutch positions and were able to deliver force so much throughout the course of their career.

## **Teddy**

We'll say and you get to start watching them again February 18. Wichita State comes in for three LSU comes in on the 23rd two line will be here it's just a really challenging schedule. talk for a second about our let me ask you about the team captains you mentioned Parker Bates and you I think yesterday or day before recently, you announced some all time Bulldog guys

## **Lane Burroughs**

Yep. Bulldog man's what we call them. I wanted to start that a few years ago and Matt Miller, our current assistant coach, he was our Friday night guy and Chris Clayton he was our catcher they were the inaugural Bulldog man and it ain't just about being good players. It's everything and encompasses a lot of stuff and they put the program before their their individual stats and all that you can depend on these guys are foxhole guys and you know I can remember I said this the other night we named steel Nashville we named Taylor young Parker Bates and Jonathan Fincher and their forever captains their their pictures go up on the wall now all their captains that for Louisiana Tech baseball forever, you know, it's kind of wanted to do it like the Yankees they've only had 15 or 16 captains and currently do not have one since Geeta retired and they actually went 30 years I think between Gehrig and Monson there was no captain so it's not just and we've all named captains or the team though and it turns out to a popularity contest and I've had team captains let me down you know it's the end up not playing or maybe don't even finish the year with us so this is this isn't a thing we we take lightly. But I can remember Taylor young I said this the other night, him and steel After naming Matt Miller Chris Clayton Bulldog men three years ago, him coming up to him and he said that's gonna be me and steel one day, he said that he said, we're gonna be up there You mark my word, you're gonna be naming us bulldog and he's a humble guy. Oh, absolutely. That's what he took that to heart and no doubt that I'm gonna remain something so very proud of those guys. And you know, they were it was good to name that Parker couldn't be with us the other night he's currently playing with Kansas City Royals their organization and he had to go to Kansas City for many instructional league so he couldn't be there but his mom and dad David Melinda were there and to be able to call them up you know, you could see the the chins quiver and and it was, it was a special moment. And, you know, I kind of put myself I couldn't

imagine being a parent. And you know, that's kind of the climax of the night. You know, the Bulldog man and we handle those big pictures that are going up on the wall and it's big deal.

### **Teddy**

Yeah, and Parker bikes if you follow him on social media, he did post it it was just you know, Bulldog baseball's meant the world to him is life changing farming and In what a wonderful family they were always at the ballpark he had a pretty big hit those two magical weekends that the Bulldogs into the season on. Okay, what's the steel sign?

### **Lane Burroughs**

Well, we we do we do change we do have a steel sign we rarely put it on but we, what we go with usually is the green lights on. Okay, so if that's on you, we got runners and we feel like a lot of our guys have the green light. Like Tyler young he can run anytime he wants. You know, he knows the game that baseball IQ is off the charts but we rarely put a steel alone it'll be a running hit or hit run but we just have a green light and we also have a red light meaning don't know we're not running run so you know, so that's I wouldn't I don't even know if I've put the actual steel sign on. Since I've been a head coach. I mean, the game's changed now there will be the green light and the guy and running I will strenuously exit the word I need to get the green light all I need you to run right now so I remember

### **Teddy**

the play were still was trying to score during the brazen or that any you gave him that you told him to run? Whoa, and he stopped? I can't

### **Lane Burroughs**

remember. Yeah, let's say let's relive that. No, he ended up getting thrown out. You know, a game that was that was the game game one against Southern Miss on Saturday that he ended up getting the walk off. And I've had a lot of guys through the years. As if I'm coaching third, they have ran through a stop sign. I've never had one stop on a go sign. He's the first one and he scores easily. But he he decided he and I remember thinking Well, everybody's firing me right now. Yeah, get rid of that guy. But he ended up he came back he ended up getting a big hit to tie the game. And then he got the walk off the double in the game score. Well, hey, if you're gonna you're gonna do that come back and redeem with somebody.

### **Teddy**

Is teriyaki steal steal juicy fruit from your bag during the game? What's extra?

### **Lane Burroughs**

Oh my god. Yeah, Taylor. He's got carte blanche to my bag. Just keep hitting keep getting obey score runs and you can have whatever you want in there, but I knew he was special when he's a freshman. Then I told Coach Creel I said, You need to stay out of my bag and get your own gum. This is drama going disappearing. Yeah, Coach crew. He's now Southern Miss and he said, I think you need to talk to you more say he was a freshman. Why he said he's in your bag all the time. When you're out there. Third, he's in your bag. So I knew I had some special when a freshman West

**Teddy**

Monroe zone. He's a lot of fun. I don't know if anybody loves the game more than him and I'm just one day last year, driving past the ballpark and he's walking from DJI stadium. He's got his bat on his shoulder with his glove hooked in his baton. He's got his cleats in his hand. When in full uniform. Just walk into the game like you're gonna go all American at 10 o'clock. I'll go down to the park and say he wants to play ball. That's right. Then of course he gets to JC Love feels and bangs out goes three for four with two runs scored probably couple RBS point wraxall two and then we'll wrap this up just a second. What my point wraxall so tough to beat you. And how are we all then like 11?

**Lane Burroughs**

Nine and 10? That's not Yeah, my dad was the CO Correct. Yeah, yeah, that back lock. That that didn't that didn't mix. Well. As a matter of fact, when I was teaching this true story. We were practice I can see the field. I know the yellow field. We were on a yellow field and me and him were going back and forth at each other and he said, I'm done coaching you we can't be on the field together. And he did. I moved on and he coached point rexhall for 15 more years he was the head coach pointer XL man in 10 year old team for probably 15 Oh god last 16 years in the 70s now yes 70s and early 80s That's

**Teddy**

right. Yep, the helmet bag.

**Lane Burroughs**

Oh my gosh yeah. Bag All right, we had the green Air National Guard bag and and that was you know, we were just like, you always see like on Bad News Bears and things. It's exactly you know, get the helmets and I can remember strapping it up and we'd go pick up four or five guys and head to Martin you know when I was a coach's kid so I had to make sure all the equipment was rounded up and throw it in the back of the truck and that was good old days it didn't get no better yeah give the score book to some dad or monster keep exactly right beautiful.

**Teddy**

We were talking about this the other day back in the 70s you get a rest for some of this stuff now but like the steel Sam was if I take a sip of beer the third base coating mesh right? Yeah, thank you drag on a hater.

**Lane Burroughs**

I need you to hold Thomas LaVale rube borrows my dad Train man his whole life. He was known to probably smoke a cigar to in the dugout with us as youngsters we didn't think nothing about it. You know, it's just the way it was

**Teddy**

the smoking rack sauce. Oh, that was a lot of fun. God bless guys like your dad who would who would do that just couldn't wait to get to the part. You know, they work their job and they're thinking about working out play Tammy. Ronnie, how can I best exactly right and the beautiful thing was Jump in that bat bat bat balls, batting helmets last. There's no Telemon to fall out exactly. The bag. Okay. Well, this game to you, is all consuming. I mean, I'm sure when parents come up to you say, Hey, why don't Joey

play more something? Listen, I think about it 10 times more than you do your kid but I don't think about anything else. What what is it that's so appealing to you about it that you're willing to say, Okay, I'm going to do this for my career.

### **Lane Burroughs**

Yeah, I think one of the things is what I said it the other night when you talk about the Bulldog man, and I told a story about each guy briefly, when they were just green as monkey grass freshmen and something they did that just was not good, or made a bad decision on the field. And, and all of them had a little story or not me not thinking they were gonna make it. And that's the beauty of it. And I said that of doing this job as you see him come in as these green boys, and then they leave as their full grown men. I mean, they're different, they're different socially, they're different academically, and they're just they go from being tiptoeing around and and worried about what coaches thinking and doing to not care what I'm looking at or doing and, and running the show. So that's what makes it so much fun is just watching them grow and and competing and being that you know, you can you can be having the worst day of your life. And we're so fortunate we're in the middle of it I say stuff all the time and my wife will say you live it some of these other people don't so you're used to it but you could be having the worst day and you walk into clubhouse or walk on that field man and everything's alright you're around your guys I make you feel younger and you know we like to have fun. I know I can be a handful I can be tough to play for but you know, we like to we joke with each other I let them come back at me and and we have fun that's why you do it. But it is all consuming. Yes. You can ask my family we're on vacation and sometimes the recruit calls I gotta sneak off and go take the call and it never ends. It's it literally in all coaching it's it's 365 I mean it's never ending.

### **Teddy**

You can be intense but you do like to have fun. I'd say what's fun is winning gang

### **Lane Burroughs**

you got what I say? No fun W

### **Teddy**

Okay, wrap this up before it unless you have anything else to add. Y'all were JAM PACKED at the first pitch dinner.

### **Lane Burroughs**

Oh, success. Yes Uh,

### **Teddy**

the fans have really been you know the 10th man on the field I think for you but just about your fan base. What do you want to say to to that gang again y'all are stuff back there any marine for the coaches? They

### **Lane Burroughs**

really wasn't Yeah, we in our players most of them had to stay in which is good and just like I told him the other night our you know, our fans, our alumni, our stakeholders and they don't understand I think

Steele said this perfectly to don't understand what they mean to us and and you go back to that, I guess the Southern Miss Saturday May 20 They lift us up on you don't I don't think they realize it you lift us up and so you're not losing you're not gonna let our guests feel it and the other dugout can feel it they know what's coming here they come they you know they pump it ups play in the fans wrong. Oh boy. I've been in that dugout at other places you like they're coming and we can't stop them. They got them behind them and that's what we envision. We took the job here and that's what we wanted and hopefully we can continue to build this have another great year we got another great schedule and and we just appreciate our fans so much and the loyalty they show to us and all our sports here at Louisiana Tech. Got a

### **Teddy**

lot tech sports.com to look the schedule again. Wichita State comes in for three February the 18th through the 20th Can't wait for Bulldog baseball line. Thanks for what you brought to the program and it's been a while since baseball has been like this. In Ruston. Maybe some of us forgot what we were missing. I hadn't but it's it's just been a joy. So best wishes to you. It's a hard game to play. It is so y'all are out there duking it out in and making a lot of people happy. Thanks. there's anything else you want to add before we wrap it up.

### **Lane Burroughs**

Oh, just invite everybody out another good schedule and we're looking forward to the kicking it off against Wichita State and then you got LSU in two like you said, first seven at home. Really good opponents and thank you to everybody that comes down supports us and I appreciate y'all having me on today. This has been fun.

### **Teddy**

It's been a blast. Don't forget that the last weekend in February I think point wraxall was going to come to play out of Bulldogs you don't want to miss that Get your tickets now go to LA tech sports comm slash tickets to 573631 for season tickets to watch the Diamond Dogs thanks line. Thank you till next time
